Dear Dr. Tran,

10/20/2025

Let me elaborate further on the situation and the gravity of the issues at hand.

With my background in psychology and decades of public service, I can say that patterns of deceit don't just appear overnight they start in childhood.

And now, we are seeing the consequences of those patterns unfold in a very real way here in California.

You see, the web of falsehoods you've spun has now implicated several people. Hanson Le, for example, is looking at multiple counts of bank fraud and wire fraud.

The FBI and postal inspector are closing in on how payments meant for Berkshire Hathaway's accounting department conveniently never made it there. Each of these is a federal offense, and as we know, the authorities are thorough.

Anna Ly also played her part, and her sister you daughter "T" Tran just married I hear with multiple spelling you pick one lives next door Hanson's best friend by public records.

Anna not only misrepresented the terms of our contract, but engaged in actions that could amount to bank fraud and wire fraud as well.

Then there's Mr. Silverstein, who took your word over documented evidence and is now facing his own legal exposure for his role in facilitating these fraudulent actions.

Let's not forget that LY Constructions' claims about damages are equally suspect, and they, too, will have to answer for false statements and inflated invoices.

Every single one of these individuals will be held accountable, and the total financial exposure could run into the millions.

In short, this letter is your notice that the cumulative consequences of these lies and fraudulent actions are significant and will be fully pursued in court.

This is your opportunity to understand the gravity of what you've caused. I will bring all of this forward in both state and federal courts, and the jury will have the full picture of how this has unfolded.

Therefore, Dr. Tran, please understand that every time I send you evidence electronically, it is your opportunity to review and respond.

I am representing myself in this matter, and if you do not object to the information I provide in a timely manner, I will consider it accepted as fact.

When I mark pages as T100 or any other exhibit, they are intended for the jury to see.

Let it also be known that for each documented, legally sound piece of evidence I produce, I expect compensation for my labor, time, and materials.

My running bill stands between \$275 to \$500 for each piece of evidence i produce for the court.

This is not just about the legal case; it is about ensuring that the cost of your dishonesty is fully accounted for. In closing, I advise you to take these matters seriously and respond accordingly, because this will all be brought before a jury of our peers soon.

District Attorney is watching.

Sincerely,
Michael Gasio

PS what was your take asked \$20,980 got \$4,000 as a second July payment after you check back to us never cleared your bank was lost by post office?
