Dr Pat Tran.

I have documented an AI has a stored for your upcoming trial The email I sent you thanking you when you told us you would never speak to us again and what you were doing was just business because you like us.

Because I believe English is your second language I want to be very clear everything that happened to us after April 19th 2024 are both federal and state offenses. I'm cataloging a little bit over 2,000 years of penalties for all of your contestants in your little ring of crime from your two daughters to your JCPenney's attorney.

I have every email from the very first one I gave your daughter saying we have to 100 lb dogs.

You'll have plenty of time to explain to your cellmates why it was a good idea to steal 20,980 from retirees on social security and think that they wouldn't really notice.

Remember the video.

15 minutes of charges you would face for perjury to the upcoming court trial

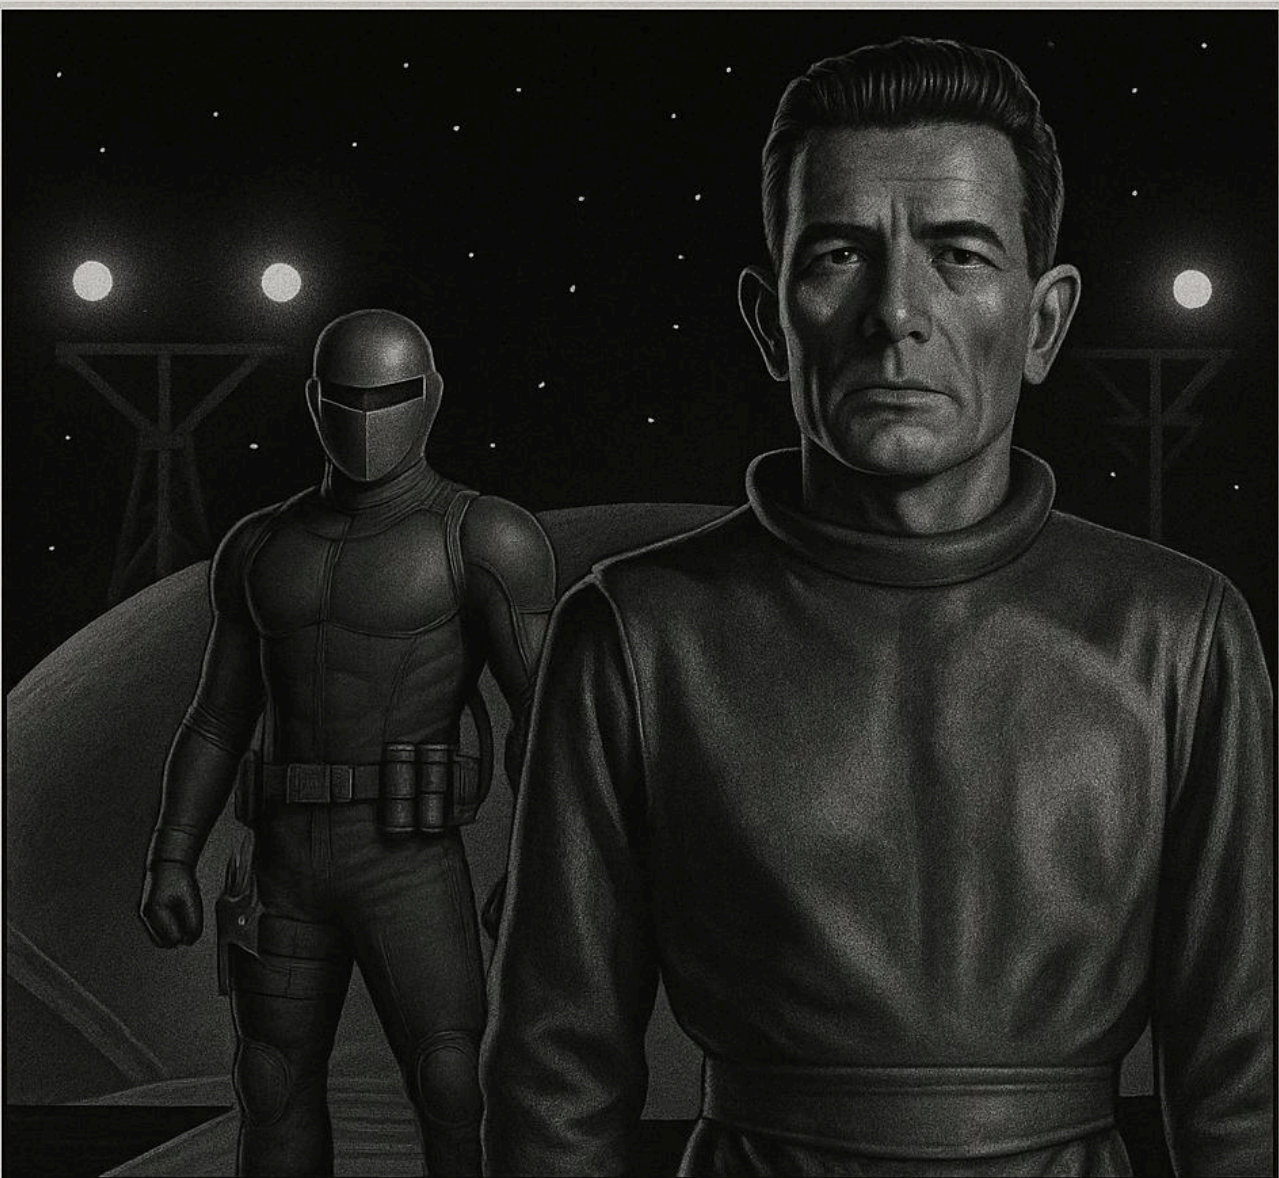

I promised to you and your shyster lawyer back then that I would throw the book at you. I came with five of them. You have no idea what 90% was in those books.

That is nothing compared to what AI has completed after reviewing all of the emails between us. Remember the series where I told you the 10 felonies you had done one at a time by email?

Now this way with jury cards the jury will have no problem seeing the truth you were warned repeatedly.

On my side of the fence I was taught thou shalt not steal.

A RACE OF ROBOTS.**

Put me in jail judge if one thing is lie. He never pay me the May, June or July rent and his dogs piss on everything. I had to throw away \$800 just in baseboards. I had to spend \$3,000 to fix the stairway after 1 month. Yes to prejury he lives alone sent over internet and certified mail all papers to just him. He lived there alone just one month. Don't look at the people on the contract just him.
